[KLC] TERMS + CONDITIONS

Dear Bride-to-be

Thank you for considering KLC as your wedding planning partner. We hope it will excite and inspire you for your special day. Know that we pride ourselves in quality products and service.

Just a few things before ordering:

We generally need 10-15 working days to complete an order where after our courier company needs 3 to 5 working days to deliver.

We do not take any responsibility for delays with the courier delivery. A tracking number will be provided once the courier company has picked up the order.

A 50% deposit is payable upon order. We will then start on the designs to send for your approval. Production will start and the balance of your account is payable before the courier is notified of the pick-up.

The design is adjustable only twice. After the second adjustment additional design fee will be charged.

Prices do not include courier fee. The courier fee will depend on your address. Addresses near big cities will be cheaper. When the quotation is sent the courier fee will be added.

Any new ideas are welcome, we however do not copy other company's products.

Unfortunately we can not use any metallic paints. We can produce a raw wooden product which is easy to spray paint yourself. All other colours are paintable. We do however have metallic perspex (mirror gold and mirror silver).

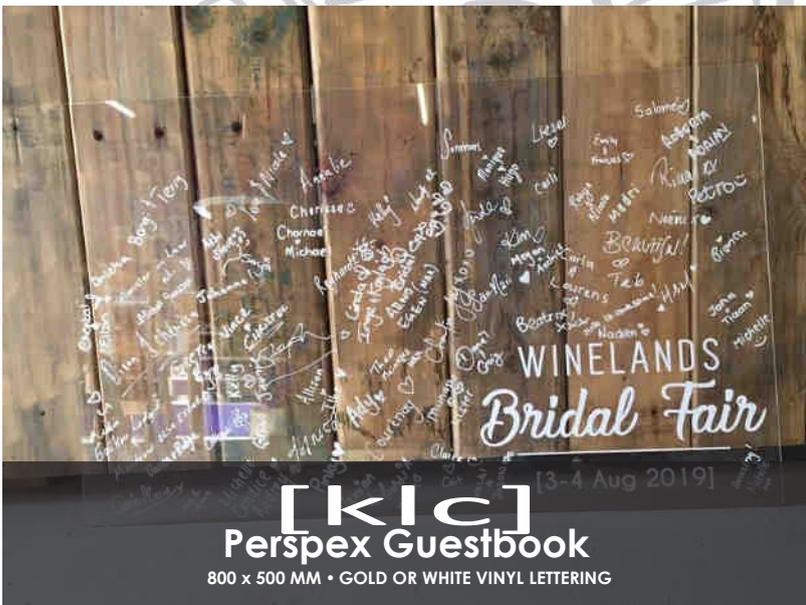

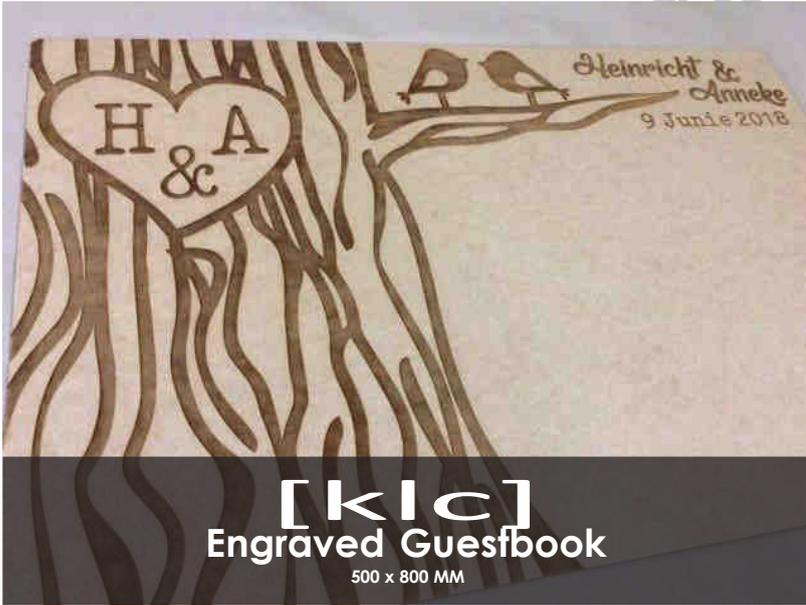

The best communication method is via e-mail. We may not always be available on our cell phones as we are in the factory making beautiful products.

We look forward to making beautiful things for your special day.

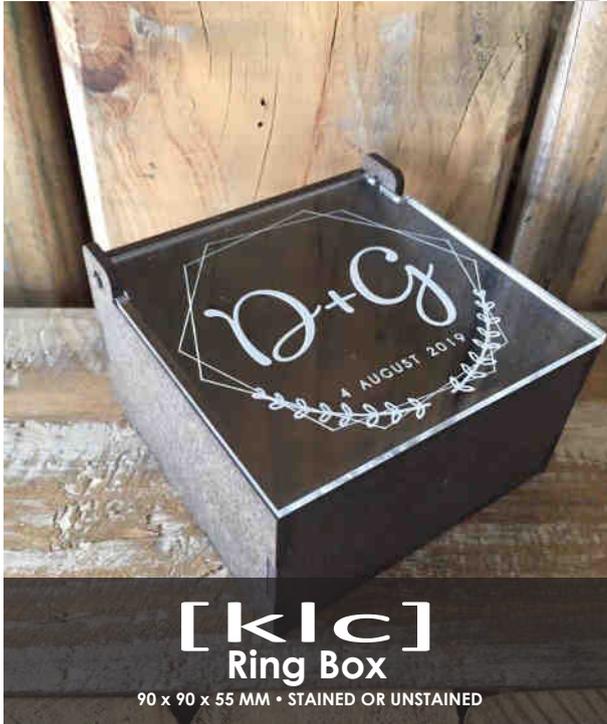

Happy planning!

KLC Team
